

**PRE-TRAVEL STUDENT HEALTH SERVICE (SHS) VISIT
FOR GLOBAL HEALTH STUDENTS**

Plan & SHS Travel Consultation for Global Health	<input type="checkbox"/> MS1 <input type="checkbox"/> MS2 <input type="checkbox"/> MS3 <input type="checkbox"/> MS4 <input type="checkbox"/> MPH <input type="checkbox"/> PHD Check All That Apply <small>Note: MS1, MS2, MPH & PHD students are not approved for clinical experiences (other than acupuncture) that could expose them to blood or body fluids. Acupuncture and MS3/4 students interested in clinical experiences (other than BUP clinical elective) must schedule meeting with CGH to obtain approval for plan before SHS pre-travel consultation.</small>
	<input type="checkbox"/> research <input type="checkbox"/> public health <input type="checkbox"/> clinical/low-risk (without exposure to blood/body fluids) <input type="checkbox"/> clinical/high-risk* (potential exposure to blood/body fluids; MUST meet with CGH to obtain approval before scheduling SHS appointment. You will be turned away from SHS without approval.) Check All That Apply
	Non-BUP High-Risk Clinical Experiences <i>Only required for clinical/high-risk* experiences OTHER THAN Botswana-UPenn medicine elective</i> <input type="checkbox"/> Prescription for 3-day starter pack of PEP (post-exposure prophylaxis) from SHS <input type="checkbox"/> ITD 357 <input type="checkbox"/> Phlebotomy <input type="checkbox"/> Clearance from SOM faculty <div style="text-align: right;">CGH Signature: _____</div>
	Endemic TB <small>Most countries are TB endemic (WHO definition is incidence >20/100,000). Check TB status of your destination country via WHO TB Country Profiles: www.who.int/tb/country/data/profiles/en</small> <input type="checkbox"/> TB Endemic: must have PPD ≤ 1 year before travel and 12 weeks after travel; if patient exposure (even interviewing or observing) is planned, check box for respirator clearance: <input type="checkbox"/> Patient exposure: must get respirator clearance and N95 fit testing <input type="checkbox"/> Not TB Endemic: PPD not needed
Health Conditions	<p>If you have any personal health conditions that could be contraindications for your planned global health experience [e.g. asthma, certain allergies, diabetes, eating disorders, pregnancy, neurological (including migraines) or psychological conditions, or immune deficiency might be contraindications], see your treating clinician before visiting SHS to request a note that explains the situation and specifies whether or not s/he advises restrictions. Bring this 2-page SHS form and, if applicable, treating clinician note to present at SHS visit.</p>
Schedule Required Pre-Travel SHS Visit(s)	<p>Make your appointment for SHS visit components (see 3 items below) at least 3 months before planned departure. Call SHS at 215-746-3535, press option 1 to speak to a nurse, and specify all of the following in your appointment request:</p> <ol style="list-style-type: none"> 1. Travel Consultation for Global Health 2. Travel Immunization Appointment* 3. Respirator clearance and N95 fit test appointment (if patient exposure box is checked above) <p>*Review SHS suggested immunizations with CGH before getting them; some may not be necessary for your destination</p> <p>When the Global Health Travel Summary on the next page has been signed and stamped by SHS, please submit it to the Center for Global Health (CGH) along with other required paperwork.</p>
Read & Sign	<ol style="list-style-type: none"> 1. When you have completed all pre-travel items recommended by SHS, the SHS Reception Nurse will complete your travel summary (see next page). The travel summary, including any restrictions/accommodations will be reviewed with you and your signature will be requested. Your signature below indicates your understanding that, if restrictions/accommodations are noted, the Center for Global Health will share these with the host site supervisor/mentor so that s/he may determine whether they are compatible with your proposed activity. 2. Up to one year post travel, you should schedule a visit with Student Health Services (and remind staff of your travel experience) if you experience severe symptoms such as fever, prolonged cough, weight loss, diarrhea, abdominal pain, bleeding, unusual rashes, etc.
