

**Center for Molecular Studies in Digestive and Liver Disease
3rd Annual Conference and Retreat**

Regulation of Lymphocyte Biology in Health and Disease

Thursday April 11, 2002

Gregg Conference Center, 270 Bryn Mawr Avenue, Bryn Mawr, PA

7:30-8:20 Continental Breakfast

8:20 Welcome and Overview-Anil Rustgi, M.D.

T-Lymphocyte Signaling and Development

8:30 Steven Reiner, M.D "Transcriptional Mechanisms of T-Lymphocyte Development"

9:00 David Allman, M.D "How Lymphoid Stem Cells Decide to Become B cells vs T Cells"

9:30 Gary Koretzky, M.D "Adaptor Proteins in T-Lymphocyte Signaling"

10:00-10:15 BREAK

Costimulatory Molecules and Apoptosis in Immune Tolerance

10:15 Laurence Turka, M.D "Costimulatory Molecules and Immune Tolerance"

10:45 Youhi Chen, M.D "TRAIL Induced Apoptosis and Immune Tolerance"

11:15-1:00 Lunch and Poster Session

The Immune Response in Human Digestive Diseases

1:00 Daniel K. Podolsky, M.D "For Whom the Cell Tolls"

1:30 Kyong-Mi Chang, M.D "T-Lymphocyte Subsets in Hepatitis C Infection"

2:00 Paul Offit, M.D "Pathogenesis of Intestinal Intussusception Induced by the Rotashield Vaccine"

2:30 Adjournment-Gary Wu, M.D.
