

PENN PSYCHIATRY

MOVING FORWARD TOGETHER | RESURGENCE AND ANTI-RACISM

JANUARY 28A, 2021

MESSAGE FROM THE CHAIR

Dear Faculty, Staff and Trainees,

It's hard to believe that we are almost at the end of January! And here we all are, continuing to do our important work under challenging circumstances. I want to thank you for the work that you do and your dedication to our tripartite mission of education, clinical care, and research. As challenging as the times are, we are fortunate to have work that is meaningful and makes the lives of others better. We also do have things to be grateful for, including the stability of our school of medicine and health system, relative to our peers. Personally, most of us have things for which we are thankful. Whether it is being thankful for our family, our home or our faith, gratitude can make us stronger. And, as I often say, altruism and gratitude are key elements to promote resilience.

The light at the end of the tunnel almost seems within reach and yet we still have a ways to go. We need to remember the importance of wearing a mask and keeping physical distance from others, even though, I know, it is getting really old. Please take good care of yourself. Take the time to get the sleep and exercise you need and to eat as routinely and healthily as you can. Together, we will get through this!

Warmly, m
